1. Buildings & grounds

- a. All entrances at the high school have been locked down since the beginning of the school year. Dr. Bridgeman reports that this has had a positive effect on the security of the building. Additionally, Dr. Bridgeman spoke about the positive effect the addition of the security guard in the high school main lobby has had. The committee agreed that this measure will eliminate the need to build an entrance vestibule in the high school main lobby at this time.
- b. Evacuation plans for buildings have been completed. Alternate sites to which students in district schools may be evacuated will be explored.

2. Budget considerations 2014-2015

- a. The committee discussed items that should be considered for inclusion in the upcoming budget process, including additional card access for doors, radios, and security cameras.

The meeting adjourned at 7:00 p.m.
